

## Bolton and Undercliffe Ward Profile Supplement

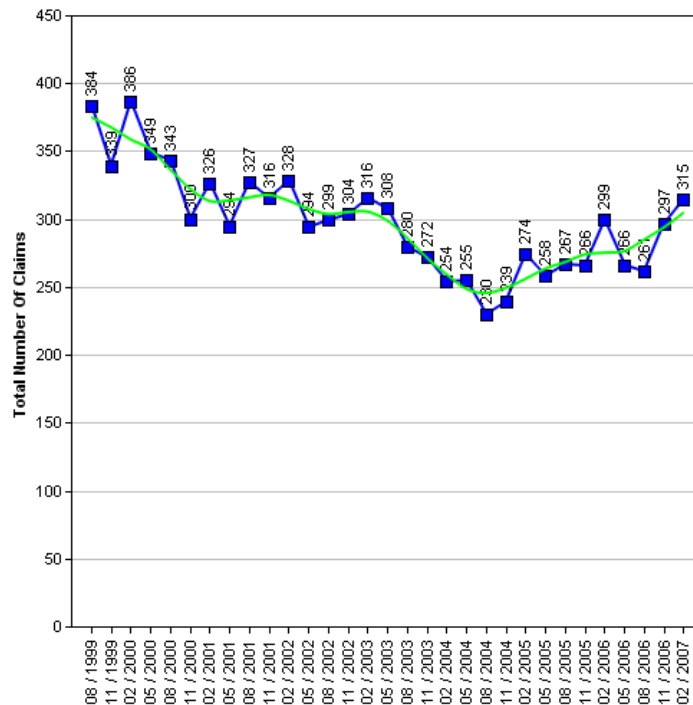

The Census is a survey of all people and households in the country that takes place every 10 years. The Census was last carried out in 2001, with results published in 2003. The next Census is due in 2010, with results expected in 2013. Consequently the actual data cannot be updated in intervening years.

Work has been underway for some time to produce a range of alternative datasets for Bradford to supplement the 2001 Census data with more current and relevant information, which will better describe conditions and progress across the District. This supplement provides a taster of that work.

It is the intention to consult Elected Members on themes and priorities. Regular data updates will then be incorporated into the intranet 'Members Information System' supported by improved analysis and narrative. Periodic snapshots in paper document form will continue to be available.

### Job Seekers Allowance

The 1991 to 2006 Job Seekers Allowance data give an insight into the number of claimants under pensionable age who are available for, and actively seeking work of at least 40 hours a week.

### Job Seekers Allowance Claimants

	1999	2000	2001	2002	2003	2004	2005	2006	2007
Quarter 1 (February)	-	386	326	328	316	254	274	299	315
Quarter 2 (May)	-	349	294	294	308	255	258	266	-
Quarter 3 (August)	384	343	327	299	280	230	267	261	-
Quarter 4 (November)	339	300	316	304	272	239	266	297	-

## Income Support

The 2000 to 2006 Income Support data give an insight into the number of claimants between the age of 16-59 who have a low income, don't have savings of £16,000 or more, are not working, work on average less than 16 hours a week, or are unable to work because they are:

- A Lone parent
- Registered sick or disabled
- A student and either a lone parent or disabled
- Or caring for someone who is sick or elderly

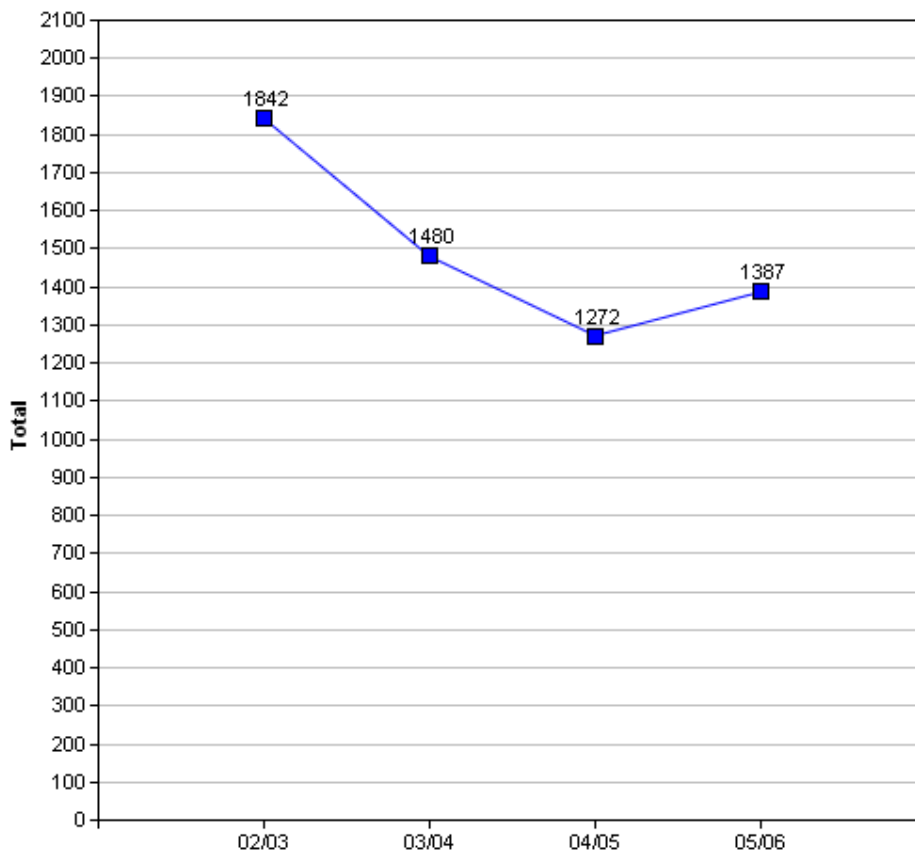

**WARNING:** In the Income Support table there is a drop in the number of claimants between the months of August 2003 and November 2003. The explanation for this is because "from October 2003, Income Support for pensioners was replaced by 'Pension Credit'" (Source: [www.mind.org.uk](http://www.mind.org.uk)).

### Income Support Claimants

	2000	2001	2002	2003	2004	2005	2006
Quarter 1 (February)	-	1,045	1,079	1,104	571	560	518
Quarter 2 (May)	1,003	1,075	1,089	1,087	571	553	-
Quarter 3 (August)	1,007	1,093	1,110	1,089	559	551	-
Quarter 4 (November)	687	688	654	258	240	238	-

## Crime

The Crime data is based on the Crime Domain from the Indices of Deprivation 2004. The Crime Domain consists of 33 categories of recorded crime which are then grouped to form 4 composite indicators: burglary, criminal damage, theft and violence. This report gives an insight into the number of offences committed within the selected area and compares this with the Bradford district. The data is displayed for each year by composite indicator.

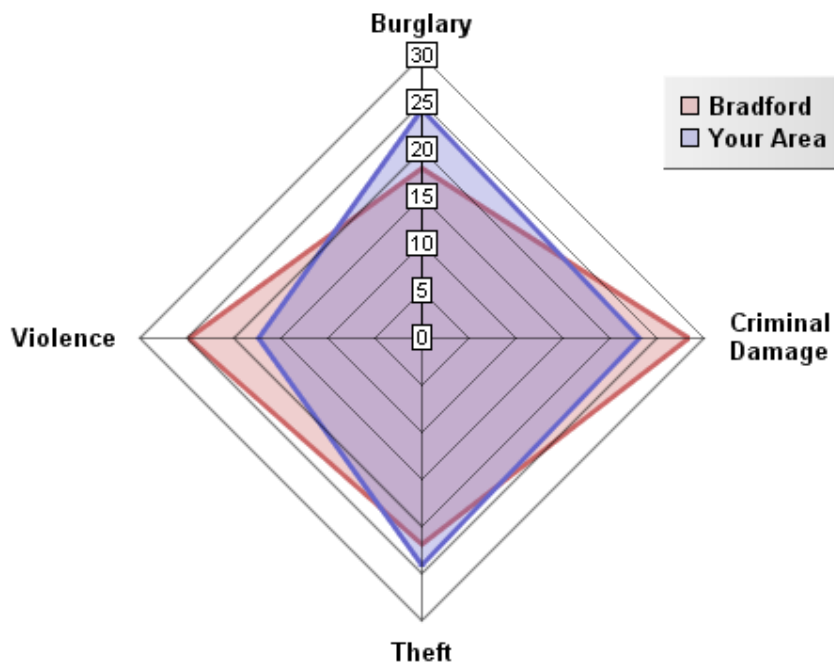

### Overall Crimes per Year

Year	Selected Area			Bradford District		
	No.Offences	Change	% Change	No.Offences	Change	% Change
2002/03	1,842			49,264		
2003/04	1,480	-362	-19.7%	48,973	-291	-0.6%
2004/05	1,272	-208	-14.0%	40,747	-8,226	-16.8%
2005/06	1,387	+115	+9.0%	43,562	+2,815	+6.9%

The pattern of crime in the Bolton and Undercliffe Ward has broadly followed a similar trend to the district. In 2004/05 numerous district wide initiatives from West Yorkshire Police and the District Crime and Disorder Reduction Partnership yielded significant reductions in crime across most categories. This was an exceptional year for crime reduction and such significant reductions have proven to be unsustainable in the following years. There has still been a 24.7% decrease in crime between 2002 and 2006. It is important to note that ID2004 Crime Domain definition of crime is limited to a subset of crime. A more accurate picture can be obtained by looking at Overall Crime Levels in the district.

## 05/06 Comparison with District (Rate per 1000 population)

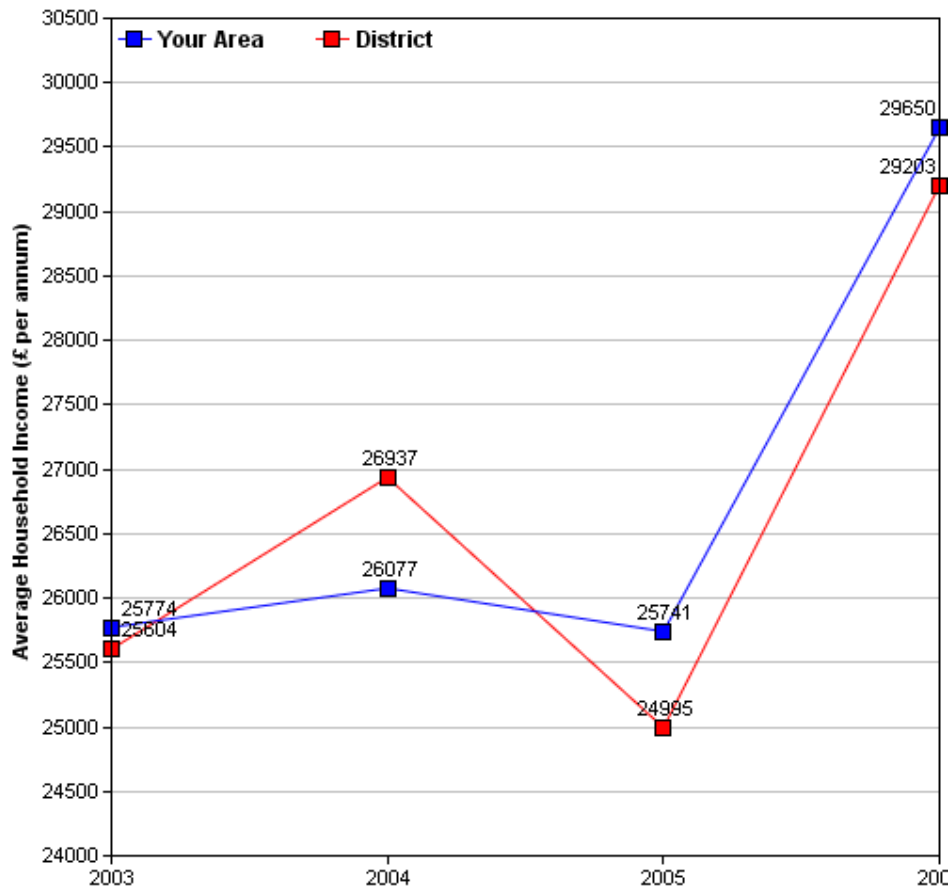

The above crime radar graph compares four variables of crime, per thousand population for your area, with that of the Bradford district. The pink line indicates the Bradford District rate per thousand population and the blue line represents the per thousand population rate for your area. The radar graph indicates that Violence and Criminal Damage in Bolton and Undercliffe below those of the district average. The radar graph also allows you to see which crime variables are closer or further from the district rate, by comparing the gap between the blue and pink lines. Burglary (25 per thousand population) for your area is well above the district rate (17.5 per thousand population). Theft in your area is above the district average, but closest to the Bradford average when compared to the other three crime variables for your area. Crime levels in your area reflect the urban nature of the area and general higher levels of deprivation compared to other areas of the district.

## Income

Information relating to income is derived from data supplied by CACI called 'PayCheck', which provides estimates of mean household income for every postcode in the UK. Unfortunately, it is not possible to use PayCheck data to examine changes in income over time, due to changes in data collection methods. However, it is possible to compare figures from different geographic areas (i.e. Ward and District) for the same time period, as they are derived using the same data collection method.

(For more information on PayCheck data please see [www.caci.co.uk](http://www.caci.co.uk).)

### Overall Income by Year

	2003	2004	2005	2006
Mean per Annum	£25,774.07	£26,076.67	£25,741.12	£29,650.64
Mean per Annum (District)	£25,604.05	£26,937.70	£24,995.30	£29,203.12

## Ethnic Diversity

This data comes from the 1991 and 2001 Censuses and shows the diversity of ethnic groups within the Bradford District. By comparing the 1991 Census with the 2001 Census we are able to compare the area over time. At both the 1991 (88.6%) and 2001 (83%) Census the Bolton and Undercliffe ward was almost completely White, but the area has become a bit more diverse as the percentage of Asians went up from 8.8% to 12.3%.

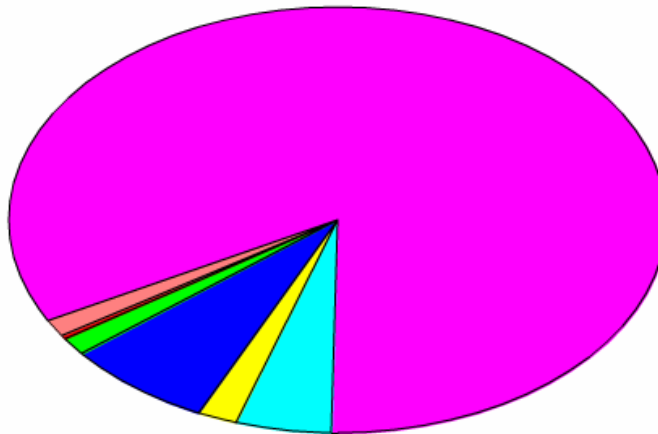

### Ethnic Diversity 1991

	Number	Percentage
White	13,078	88.6%
Asian	1,305	8.8%
Black	209	1.4%
Other	162	1.1%

### Ethnic Diversity 2001

	Number	Percentage
White	12,951	83%
Mixed	319	2%
Asian	1,920	12.3%
Black	210	1.3%
Other	208	1.3%

■ Bangladeshi	63(0%)
■ Black or Black British	209(1%)
■ Indian	1,110(7%)
■ Mixed(1)	319(2%)
■ Pakistani	745(5%)
■ White	12,951(83%)
■ Other ethnic group	208(1%)

## Travel to Work (Census 2001)

This data comes from the 2001 Census. It has details about the people who travel to and from the area to go to work, and their method of getting there.

### Travel from Bolton & Undercliffe

#### Totals

Total People travelling from Area	Distance Travelled (in Km)

East Riding of Yorkshire	3	88	88
Doncaster	3	50	50
Bolsover	3	76	76

Of the people who travel to work from Bolton & Undercliffe, over 66.1% travel by car (55.7% as drivers and 0.1% as passengers), 5.4% by motorcycle and 0.3% travel by other means (including train, buses, taxis, bicycle, on foot and other modes). The remaining 7% work predominantly from home.

Over 57% more people travel from Bolton & Undercliffe than those that travel to Bolton & Undercliffe.

Of the people who travel to work in Bolton & Undercliffe, over 57.9% travel by car (51.3% as drivers and 6.6% as passengers), 0.6% by motorcycle and 25.2% travel by other means (including train, buses, taxis, bicycle, on foot and other modes). The remaining 16.3% work predominantly from home.

## Indices of Deprivation 2004 (ID2004)

The Index of Multiple Deprivation 2004 (IMD 2004) is a Super Output Area (SOA) level measure of multiple deprivation. England is divided into 32,482 SOAs, which are small areas containing an average of 1,500 residents. The IMD 2004 project gives a score and rank to each SOA for seven areas of deprivation:

- Income deprivation
- Employment deprivation
- Health deprivation and disability
- Education, skills and training deprivation
- Barriers to Housing and Services
- Living environment deprivation
- Crime

Also, each SOA has been given an overall score and rank which takes into account all seven indices, and this is known as the Index of Multiple Deprivation 2004.

Ranks vary from 1 to 32,482, with 1 being the most deprived. Higher scores indicate that areas are more deprived. When comparing the deprivation of different areas, it is better to look at the rank than the score. Bradford Council has been able to use the Maps and Stats web-based GIS system ([www.mapsandstats.com](http://www.mapsandstats.com)) to combine scores for the SOAs that fall within the wards, and hence estimate the Indices of Deprivation at ward level.

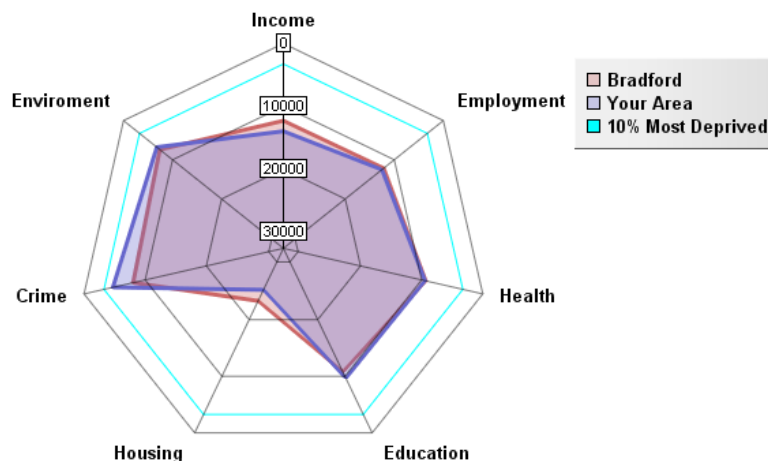

### Index of Multiple Deprivation 2004

	ID 2004 Overall Rank (Average)	ID 2004 Overall Score
E01005562 in Rochdale LA	10349	25.49
<b>Bolton and Undercliffe Ward</b>	<b>10349.11</b>	<b>27.85</b>
E01012400 in Halton LA	10350	25.49
<b>Average for Bradford</b>	<b>10656.03</b>	<b>32.93</b>

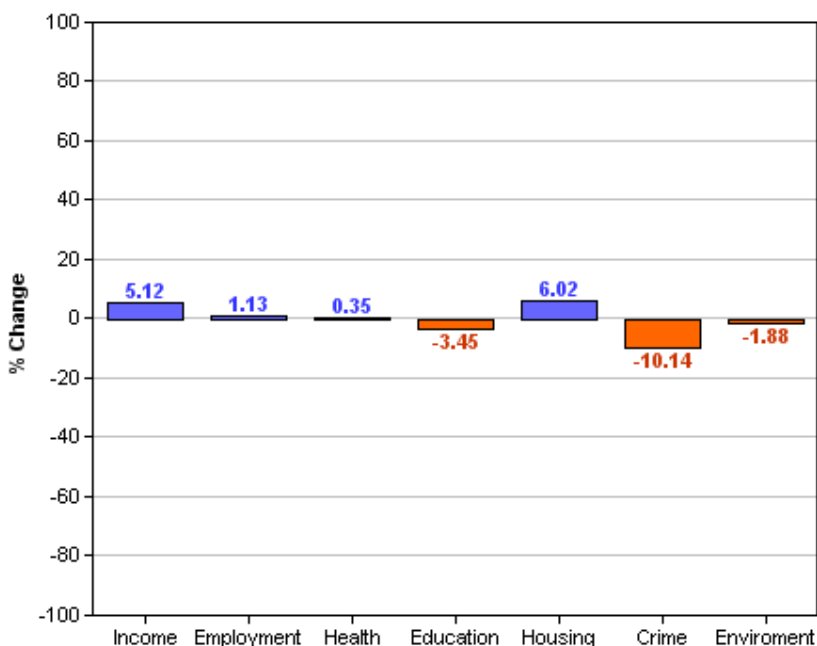

This table shows the average ranks and scores for the Bolton and Undercliffe ward. The rows above and below Bolton and Undercliffe show which SOAs in England have the most similar ranks to this ward, and are therefore considered to have the most similar levels of deprivation. It is important to note, however, that these areas may be deprived for different reasons.

### Area Rank against Average Bradford

The following radar graph and bar chart indicate that the Bolton and Undercliffe ward has similar levels of deprivation compared to the rest of the District, except for Education, Housing and Crime. Only the Crime domain (-10.1) of the Index of Deprivation 2004 is Bolton and Undercliffe experiencing significantly greater levels of deprivation than the Bradford District average. Overall, Bolton and Undercliffe ward has similar levels of deprivation to that of the district average. Bolton and Undercliffe is least deprived in Housing (6.0) and Income (5.1).
