

## Idle and Thackley Ward Profile Supplement

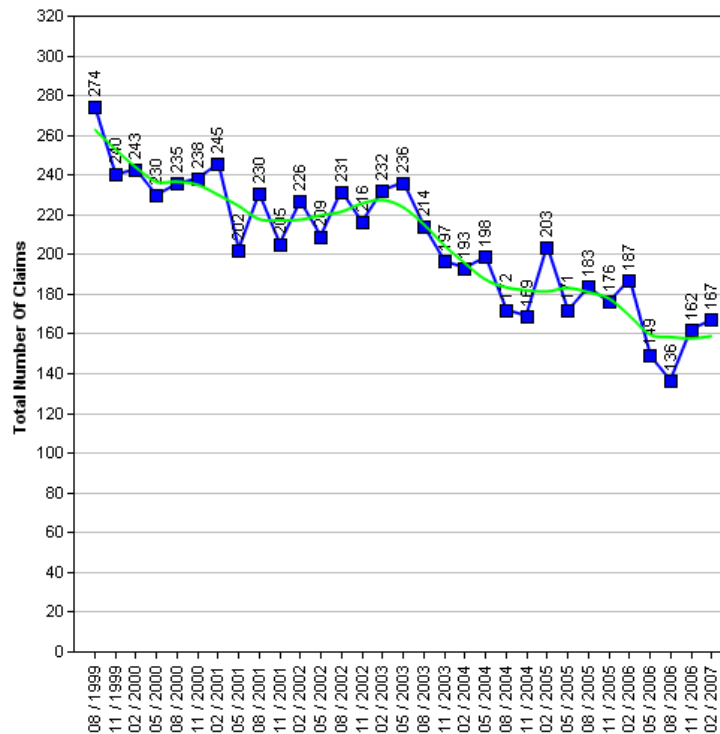

The Census is a survey of all people and households in the country that takes place every 10 years. The Census was last carried out in 2001, with results published in 2003. The next Census is due in 2010, with results expected in 2013. Consequently the actual data cannot be updated in intervening years.

Work has been underway for some time to produce a range of alternative datasets for Bradford to supplement the 2001 Census data with more current and relevant information, which will better describe conditions and progress across the District. This supplement provides a taster of that work.

It is the intention to consult Elected Members on themes and priorities. Regular data updates will then be incorporated into the intranet 'Members Information System' supported by improved analysis and narrative. Periodic snapshots in paper document form will continue to be available.

### Job Seekers Allowance

The 1991 to 2006 Job Seekers Allowance data give an insight into the number of claimants under pensionable age who are available for, and actively seeking work of at least 40 hours a week.

### Job Seekers Allowance Claimants

	1999	2000	2001	2002	2003	2004	2005	2006	2007
Quarter 1 (February)	-	243	245	226	232	193	203	187	167
Quarter 2 (May)	-	230	202	209	236	198	171	149	-
Quarter 3 (August)	274	235	230	231	214	172	183	136	-
Quarter 4 (November)	240	238	205	216	197	169	176	162	-

## Income Support

The 2000 to 2006 Income Support data give an insight into the number of claimants between the age of 16-59 who have a low income, don't have savings of £16,000 or more, are not working, work on average less than 16 hours a week, or are unable to work because they are:

- A Lone parent
- Registered sick or disabled
- A student and either a lone parent or disabled
- Or caring for someone who is sick or elderly

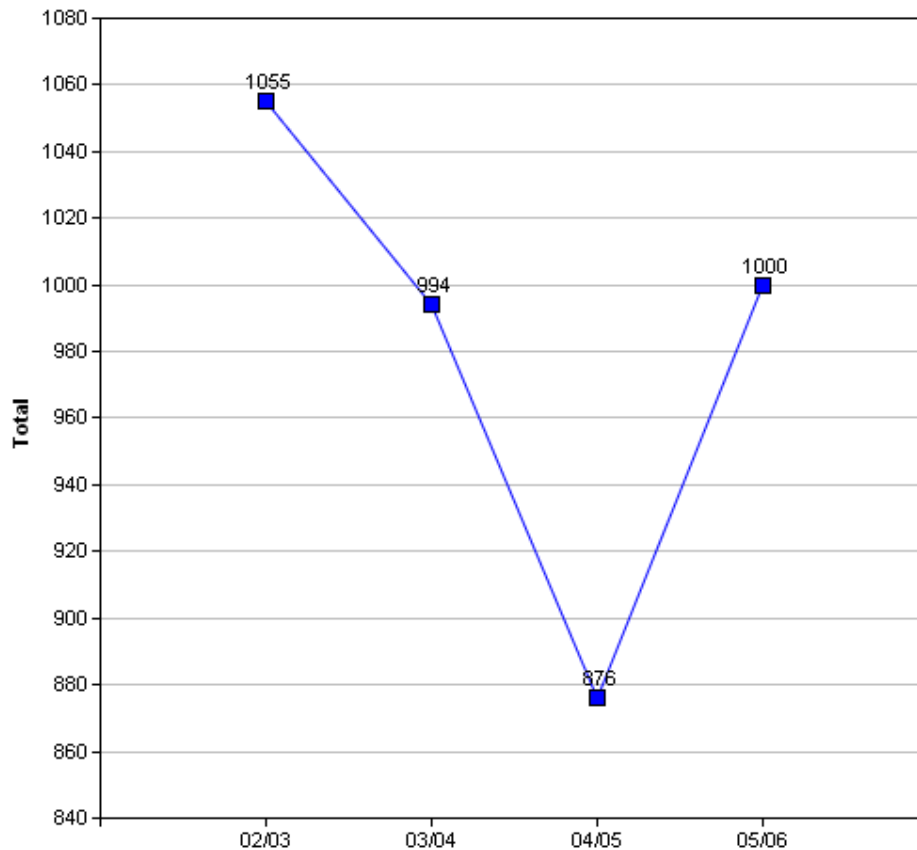

**WARNING:** In the Income Support table there is a drop in the number of claimants between the months of August 2003 and November 2003. The explanation for this is because "from October 2003, Income Support for pensioners was replaced by 'Pension Credit'" (Source: [www.mind.org.uk](http://www.mind.org.uk)).

### Income Support Claimants

	2000	2001	2002	2003	2004	2005	2006
Quarter 1 (February)	-	921	905	897	329	330	312
Quarter 2 (May)	896	930	900	901	326	349	-
Quarter 3 (August)	879	939	915	896	331	348	-
Quarter 4 (November)	922	920	886	351	331	340	-

## Crime

The Crime Data is based on the Crime Domain from the Indices of Deprivation 2004. The Crime Domain consists of 33 categories of recorded crime which are then grouped to form 4 composite indicators: burglary, criminal damage, theft and violence. This report gives an insight into the number of offences committed within the selected area and compares this with the Bradford district. The data is displayed for each year by composite indicator.

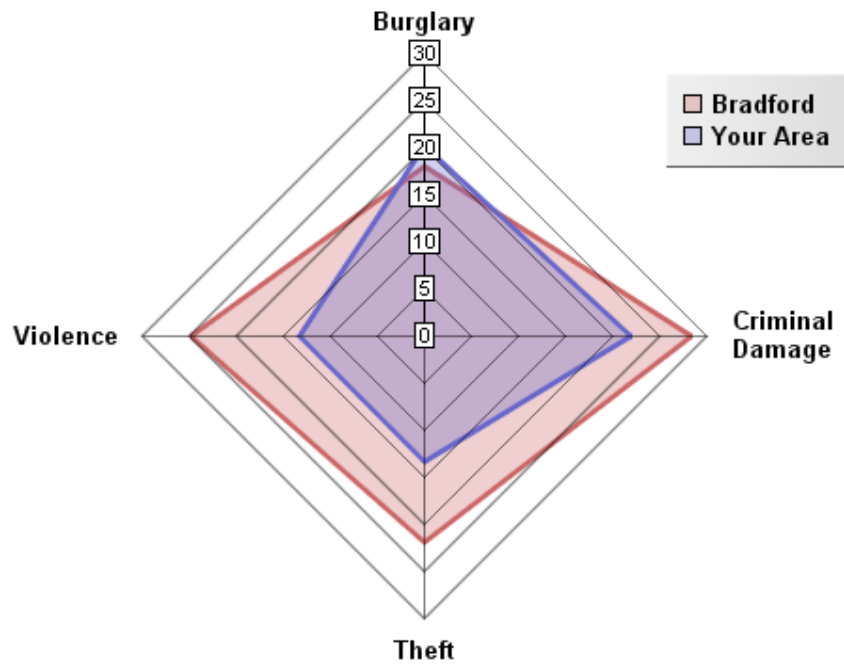

### Overall Crimes per Year

Year	Selected Area			Bradford District		
	No.Offences	Change	% Change	No.Offences	Change	% Change
2002/03	1,055			49,264		
2003/04	994	-61	-5.8%	48,973	+291	+0.6%
2004/05	876	-118	-11.9%	40,747	+8,226	+16.8%
2005/06	1,000	+124	+14.2%	43,562	-2815	-6.9%

The pattern of crime in the Idle and Thackley Ward has broadly followed a similar trend to the district. In 2004/05 numerous district wide initiatives from West Yorkshire Police and the District Crime and Disorder Reduction Partnership yielded significant reductions in crime across most categories. This was an exceptional year for crime reduction and such significant reductions have proven to be unsustainable in the following years. However there has still been a 5.2% decrease in crime between 2002 and 2006. It is important to note that ID2004 Crime Domain definition of crime is limited to a subset of crime. A more accurate picture can be obtained by looking at Overall Crime Levels in the district.

### 05/06 Comparison with District (Rate per 1000 population)

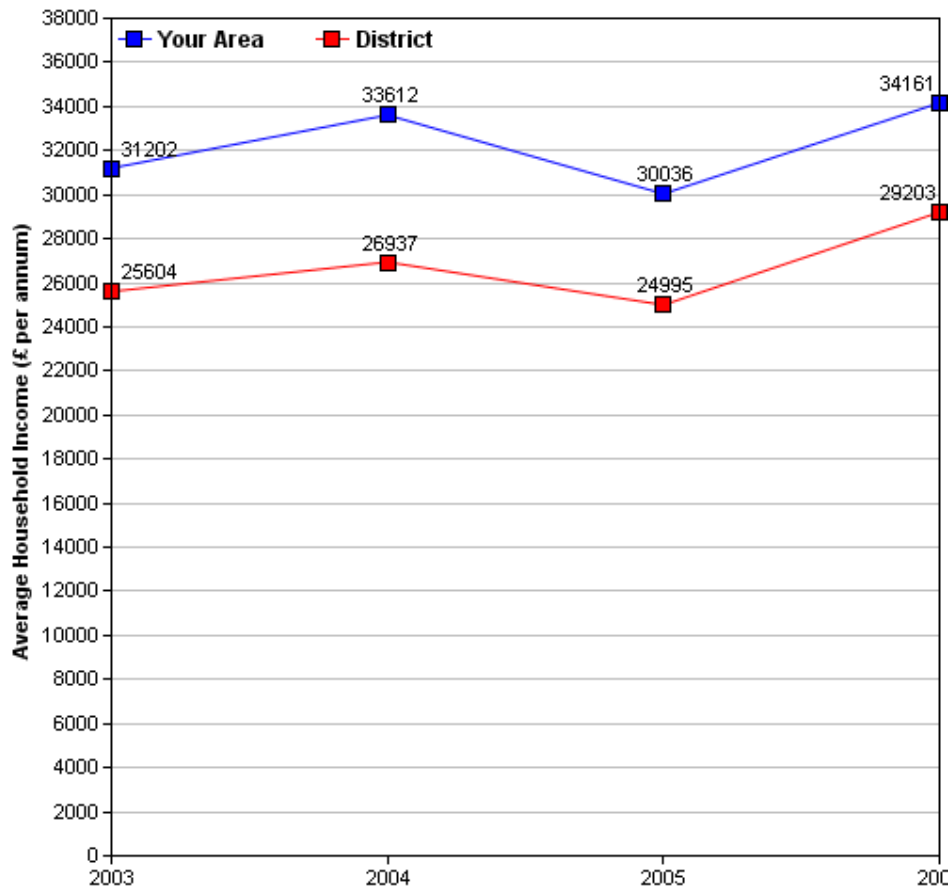

The above crime radar graph compares four variables of crime, per thousand population for your area, with that of the Bradford district. The pink line indicates the Bradford District rate per thousand population and the blue line represents the per thousand population rate for your area. The radar graph allows us to see that three of the crime variables in your area are below those of the district average, with the exception of Burglary, which is more than the District average. The radar graph also allows you to see which crime variables are closer or further from the district rate, by comparing the gap between the blue and pink lines. Violence (14 per thousand population) for your area is below the district rate (25 per thousand population). Burglary is closer to the district average, as the gap between the pink and blue lines are shortest for this variable, when compared to the other crime variables for your area. The gaps between the district rate and your area are longer for Violence and Theft. This indicates that these crime rate variables are significantly less frequent in your area compared to the district rate.

## Income

Information relating to income is derived from data supplied by CACI called 'PayCheck', which provides estimates of mean household income for every postcode in the UK. Unfortunately, it is not possible to use PayCheck data to examine changes in income over time, due to changes in data collection methods. However, it is possible to compare figures from different geographic areas (i.e. Ward and District) for the same time period, as they are derived using the same data collection method.

(For more information on PayCheck data please see [www.caci.co.uk](http://www.caci.co.uk).)

### Overall Income by Year

	2003	2004	2005	2006
Mean per Annum	£31,201.55	£33,611.62	£30,035.81	£34,160.64
Mean per Annum (District)	£25,604.05	£26,936.70	£24,995.30	£29,203.12

## Ethnic Diversity

This data comes from the 1991 and 2001 Censuses and shows the diversity of ethnic groups within the Bradford District. By comparing the 1991 Census with the 2001 Census we are able to compare the area over time. At both the 1991 (98.1%) and 2001 (96.2%) Census Idle and Thackley was almost completely White.

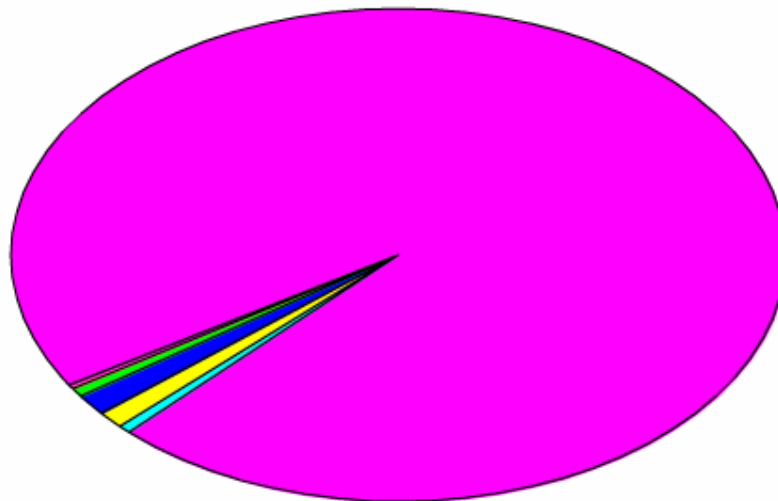

### Ethnic Diversity 1991

	Number	Percentage
White	11,814	98.1 %
Mixed	79	0.7 %
Asian	68	0.6 %
Black	82	0.7 %
Other	11,814	98.1 %

### Ethnic Diversity 2001

	Number	Percentage
White	13,989	96.2 %
Mixed	150	1.0 %
Asian	283	1.9 %
Black	67	0.5 %
Other	47	0.3 %

■ Bangladeshi	0(0%)
■ Black or Black British	67(0%)
■ Indian	191(1%)
■ Mixed(1)	149(1%)
■ Pakistani	91(1%)
■ White	13,988(96%)
■ Other ethnic group	47(0%)

## Travel to Work (Census 2001)

This data comes from the 2001 Census. It has details about the people who travel to and from the area to go to work, and their method of getting there.

### Travel from Idle & Thackley

#### Totals

Total People travelling from Area	Distance Travelled (in Km)					
	Average (mean)	Maximum	Standard Deviation	Standard Deviation (of the population)	Variance	Variance (of the population)

Doncaster	12	50	53
Selby	12	37	40
Rotherham	9	51	55
Oldham	9	44	46
Bolton	9	54	56

Of the people who travel to work from Idle & Thackley, over 72.3% travel by car (64.6% as drivers and 0.8% as passengers), 9.2% by motorcycle and 0.2% travel by other means (including train, buses, taxis, bicycle, on foot and other modes). The remaining 8.1% work predominantly from home.

Over 36% more people travel from Idle & Thackley than those that travel to Idle & Thackley.

Of the people who travel to work in Idle & Thackley, over 66.2% travel by car (58.6% as drivers and 7.6% as passengers), 1.1% by motorcycle and 28.1% travel by other means (including train, buses, taxis, bicycle, on foot and other modes). The remaining 12.6% work predominantly from home.

## Indices of Deprivation 2004 (ID2004)

The Index of Multiple Deprivation 2004 (IMD 2004) is a Super Output Area (SOA) level measure of multiple deprivation. England is divided into 32,482 SOAs, which are small areas containing an average of 1,500 residents. The IMD 2004 project gives a score and rank to each SOA for seven areas of deprivation:

- Income deprivation
- Employment deprivation
- Health deprivation and disability
- Education, skills and training deprivation
- Barriers to Housing and Services
- Living environment deprivation
- Crime

Also, each SOA has been given an overall score and rank which takes into account all seven indices, and this is known as the Index of Multiple Deprivation 2004.

Ranks vary from 1 to 32,482, with 1 being the most deprived. Higher scores indicate that areas are more deprived. When comparing the deprivation of different areas, it is better to look at the rank than the score. Bradford Council has been able to use the Maps and Stats web-based GIS system ([www.mapsandstats.com](http://www.mapsandstats.com)) to combine scores for the SOAs that fall within the wards, and hence estimate the Indices of Deprivation at ward level.

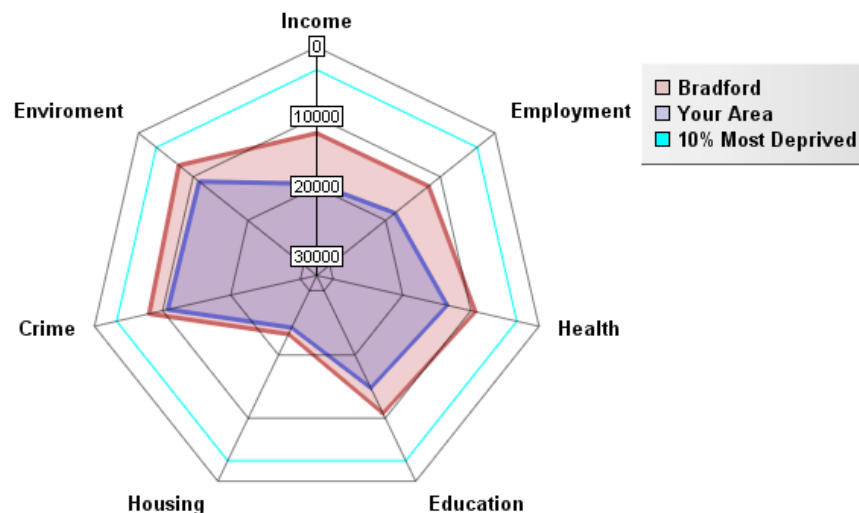

### Index of Multiple Deprivation 2004

	ID 2004 Overall Rank (Average)	ID 2004 Overall Score
E01021694 in Colchester LA	16814	16.37
<b>Idle and Thackley Ward</b>	<b>16814.95</b>	<b>19.70</b>
E01000220 in Barnet LA	16815	16.36
<b>Average for Bradford</b>	<b>10656.03</b>	<b>32.93</b>

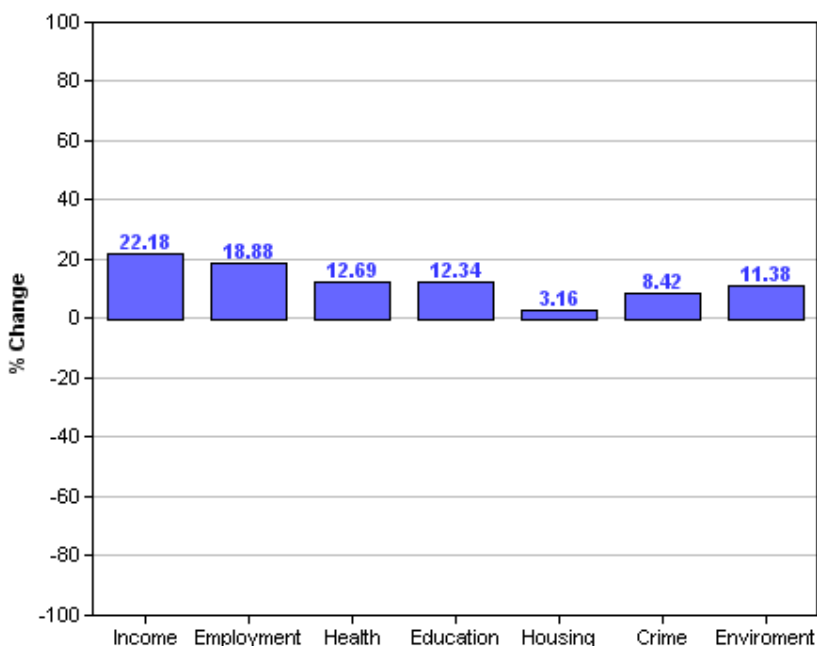

This table shows the average ranks and scores for the Idle and Thackley ward. The rows above and below Idle and Thackley show which SOAs in England have the most similar ranks to this ward, and are therefore considered to have the most similar levels of deprivation. It is important to note, however, that these areas may be deprived for different reasons.

### Area Rank against Average Bradford Rank

Idle and Thackley is relatively less-deprived compared to the rest of the District average, only in the Housing domain in the Index of Deprivation 2004 is Idle and Thackley at a similar level of deprivation to that of the district. This is probably due to the low level of deprivation within Bradford District for this domain, and due to the fact that Idle and Thackley has a more urban nature compared with the rest of the district. Overall Idle and Thackley is reasonably balanced in terms of deprivation with all domains indicating a less deprived ward, when compared to the district average. Income (22.1) and Employment (18.8) domains are the highest positive indicators of less deprivation for your ward.

## Percentage Difference between Area Rank and Average Bradford Rank

### Other datasets currently being investigated / acquired:

#### Health

Low birth weight  
 Death Rates  
 Smoking attributable health admissions  
 Perception Surveys (Speak-out)

#### Education

%5 A – C GCSE's (Inc. Maths and English)
